## **THE STUDENT WORKSHOP**

Two days of teen motivation, accountability and future planning that guarantees to drive them to turn career aspirations into reality. Maria is an experienced, passionate and action focused Coach & Educator who understands the challenges that are faced by teenagers. Students who attend her workshops are guaranteed to walk away with goals and plans of action for their future careers.

Two days of intensive self-reflection, future planning and careers & university preparation action steps are all included in the workshop.

## **THE TEACHER WORKSHOP**

Attendees are given guidance and careers coaching strategies that help them begin to make them aware of the importance of future job trends and job requirements beyond the classroom. Participants leave the workshop being able to implement workshop learnings into their teaching plans enabling them to begin to merge the gaps between education and the world of work. Following on from the workshop, each student is offered a Careers Consultation session that will ensure that the techniques and strategies offered during the workshop are instilled in their career discovery process at home.

## **THE PARENT WORKSHOP**

Changing the conversation is a talk that brings the realities of work in the future and recognising how young people are being taken through an old-fashioned university guidance pathway rather than being prepared for the skillset and mindset needed to enhance and prepare themselves for a competitive life at work.

## **GOALS & OBJECTIVES**

- 01** To empower teenagers with the awareness and understanding of their future careers.
- 02** To enhance self-reflection and self-ownership in making future career choices.
- 03** To create awareness of Core Values to instil self-fulfillment in making the future career choices.
- 04** To empower a toolbox of skills and strategies that teenagers can use in their everyday lives to enhance their learning and future career choices.

ALL REQUESTS MUST BE EMAILED DIRECTLY TO:
